## Ecstatic and exhausted

Friday, December 6, 2013 | 06:52 PM | by Tim

So... I have certainly *intended* to do a proper comic for today. However, our son had other plans, and decided to show up two weeks early.

This handsome little devil, Flynn Hartland Buckley, was born yesterday morning at a healthy eight pounds even. Mother and baby are doing absolutely wonderfully, and we're so thrilled to finally meet our little guy.

I *had* been working on a project to be ahead in comics for when he was due later this month, but it wasn't ready. I thought I'd have a couple more weeks. Today's filler sketch is all I could muster for today's update. I honestly have no clue what I'm going to do for next week. I'll work when I can, and I will post *some* sort of updates on the appropriate days, but I really can't speak to what those will be. Maybe just filler. I'll do what I can, but my priority right now is being with my family.

So please bear with me for the next week or two if I seem scattered or erratic, as we all get settled in and try to find a routine (and sleep).

Our site is being sponsored this week by [SUMO beanbag chairs](#). They love you guys and, apparently, you dig them as well. You've heard me talk about them in the past, I have a handful of their chairs myself, and I love them. They're very easy for me to recommend, so I'm always happy to welcome them as a sponsor.

With the holidays coming up, a Black Friday/Cyber Monday discount, *and* free shipping, I know a SUMO Omni would make a great gift for a close friend or relative.

So head on over and check them out.

@CAPT\_MORGAN DID ALL OF LAST WEEK JUST NOT HAPPEN FOR YOU? ARE YOU A TIME TRAVELER?

HEH. TOOK ME THE BETTER PART OF A DAY TO DO A SIMPLE 2-PANEL COMIC FOR TOMORROW. #TIRED #WOULDN'T-TRADE-IT-FOR-ANYTHING

SAW FROZEN TONIGHT. REALLY ENJOYED IT! 3D WAS GREAT TOO :)

I'LL BE UPDATING MON-FRI NEXT WEEK. TWO EXTRA COMICS FOR YOU, THANKS TO A SPONSORSHIP BY SUMO! [SUMOLOUNGE.COM](#)

@MECITMJCEYLAN YOU HAVE TO CONFIRM THE SHUTDOWN WITH AN ADDITIONAL PROMPT, SO IT MAKES NO DIFFERENCE WHAT THE INITIAL COMMAND IS.
